

Cazzago San Martino, 2026-02-26

SUBJECT: Declarations of Compliance with International Regulations

Fimeur s.r.l., with this communication, aims to streamline internal processes and declares that all products used for surface treatment of components and, in general, products for customers, comply with the following hazardous substance restriction regulations:

- Reach – updated on 04.02.2026 – the candidate list is available directly from the ECHA website at <https://www.echa.europa.eu/candidate-list-table>. Fimeur declares that none of the substances listed in the candidate list are present in its products, nor are they intentionally added during production cycles, except for potential impurities which are still below 0.1%.
- Annex XVII Regulation (CE) n. 1907/2006 - none of the substances listed in the Annex XVII are present in its products
- RoHS III (2011/65/EU) and Delegated Directive 2015/863/EU – none of the substances listed in the regulation are used in our production cycles.
- Conflict Minerals (2017/821/EU) – the metals specified in the regulation (gold, tantalum, tungsten, and tin) are not used either as raw materials or in any other phase of the production processes. However, the official version of the CMRT and EMRT can be requested directly if this declaration is insufficient.
- PFAS (2022/2388/EU) – Fimeur's working processes do not use substances containing PFAS, **except for the application process of Geomet[®] 500 and its variants, where polytetrafluoroethylene (PTFE - CAS 9002-84-0) is intentionally used. PTFE is defined as a PFAS substance by the U.S. Environmental Protection Agency (EPA), the European Chemicals Agency (ECHA), and the Organization for Economic Co-operation and Development (OECD). It is emphasized that apart from this, no CF3 or CF2 carbon atoms are intentionally added without any H/Cl/Br/I attached to them.**

Stabilimento 1 Fimeur S.r.l.
Sede Legale: Via P. M. Curie, 31/33 - 25046 CAZZAGO S. MARTINO (BS)

- TSCA – the products used in Fimeur’s production cycles do not contain substances listed in the U.S. federal law regulating chemical substances.
- California Proposition 65 (Safe Drinking Water and Toxic Enforcement Act of 1986) – the products used in Fimeur’s production cycles do not contain substances listed in the California Office of Environmental Health Hazard Assessment (OEHHA) list, which can be found at <https://oehha.ca.gov/proposition-65/proposition-65-list>.
- POPs (2019/1021/EU) – the products used in Fimeur’s production cycles do not contain the substances listed in Annex I of the regulation in question.

For other more specific regulations not listed herein, the applicability and potential compliance will be evaluated upon specific requests.

It is also emphasized that customer declaration formats will not be used, only official declarations issued directly by Fimeur’s Quality Department, in order to ensure full responsibility for the declarations made.
